

# Neel Shah

AI ENGINEER · AZURE DATA SCIENTIST ASSOCIATE

Gujarat, India. (Willing to Relocate)

☎ +91 8980552390 | ✉ neeldevenshah.ai@gmail.com | 🏠 neeldevenshah.github.io | 📺 NeelDevenShah | 🌐 neeldevenshah

## Summary

Innovative AI Engineer with expertise in machine learning, deep learning, computer vision, and NLP. Proven ability in fine-tuning open-source models for domain-specific applications, delivering impactful business value. Actively advancing knowledge in reinforcement learning (RL), working on cutting-edge AI research. **3x Hackathon Winner**, with notable achievements in the NVIDIA OpenACC International Hackathon, Amazon ML Challenge, and Meesho Visual Taxonomy Data Challenge 2024. Acknowledged for skills in **data engineering, MLOps**, and recommendation systems, adept at **streamlining end-to-end machine learning workflows** from experimentation to production. Microsoft Azure Certified Data Science Associate, **leveraging cloud technologies for scalable AI solutions**. Committed to applying AI and data engineering expertise to drive innovation and efficiency across industries.

## Work Experience

### Aviato Consulting

Australia (Remote)

AI ENGINEER

May. 2024 - Jun. 2024

- Engineered AI-driven solutions for virtual fashion try-ons and B2B customer interactions using **deep learning, multi-agent systems, recommendation engines, and Neo4j on Google Cloud Platform (GCP)**.
- Developed personalized and interactive experiences by implementing multi-agent systems and sophisticated recommendation engines, enhancing user engagement and satisfaction.
- Integrated AI innovations into real-world applications for **Australian clients**, demonstrating the potential of AI to revolutionize various sectors and elevate user experiences.
- Empowered consumers with informed fashion choices and businesses with deeper customer insights, driving significant advancements in fashion retail and customer relationship management industries.
- Contributed to projects that **received outstanding client feedback and achieved remarkable business outcomes**, showcasing the tangible benefits of AI.

### Charusat Learning And Development Club (CLDC)

Gujarat, India

AI DEVELOPER

May 2023 - Jun. 2023

- Spearheaded the development of a deep learning-based **botnet detection model using TensorFlow, Keras, and Python, enhancing cybersecurity** by identifying and neutralizing malicious botnet activities.
- Played a pivotal role in creating an advanced **emotion detection model**, utilizing deep learning techniques to accurately recognize and classify human emotions from video and audio data.
- Utilized **agile methodologies, robust problem-solving, and effective communication** to drive project success.
- Leveraged AI to deliver impactful solutions, showcasing technical expertise and a passion for continuous learning and excellence in the field.

## Skills

<b>Data Science</b>	Machine Learning, Deep Learning, Reinforcement Learning, MLOps, Computer Vision
<b>Web Development</b>	Fast API, Flask, MERN Stack (MongoDB, Express.js, React.js, Node.js)
<b>Programming Languages</b>	Python, Java, JavaScript, SQL, Cypher, $\LaTeX$
<b>Cloud Platforms</b>	Microsoft Azure, Google Cloud Service (GCP), Databricks
<b>Business Intelligence (BI) Tools</b>	Power BI
<b>Frameworks and Libraries</b>	Pytorch, Tensorflow, Keras, Scikit-Learn, Numpy, Pandas, Matplotlib, OpenCV, Seaborn, Numba
<b>Databases</b>	Oracle SQL, MongoDB, Neo4j, Neo4j Graph Data Science (GDS)
<b>MLOps Tools</b>	Git, GitHub, Docker, Apache Airflow, WandB, Astro, MLflow, DVC, Microsoft Fabric, Apache Spark(Beginner)
<b>Operating Systems</b>	Linux, Windows
<b>Languages</b>	English, Hindi, German (Beginner), Gujarati

## Education

### Charotar University of Science and Technology (CHARUSAT)

Gujarat, India

BACHELOR OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

Sep. 2022 - Apr. 2026 (Expected)

- CGPA: 9.6

### Smt. Parvatiben Bhalchandra Dhirubhai Joshi Higher Secondary School

Gujarat, India

PRIMARY, SECONDARY, AND HIGHER SECONDARY (SCIENCE)

2022

- 10th Grade: 92.98th Percentile
- 12th Grade: 87.96th Percentile

## Certifications

---

<b>Stanford University</b>	Machine Learning Specialization
<b>Nvidia</b>	Fundamentals of Accelerated Computing with CUDA Python
<b>Microsoft</b>	Certified Azure Data Scientist Associate, Data Science with Azure Databricks
<b>Huggingface</b>	Deep Reinforcement Learning
<b>DeepLearning.AI</b>	TensorFlow Developer, Deep Learning, Generative AI with Large Language Models, Convolutional Neural Networks.
<b>RedHat</b>	Fundamentals of Redhat Enterprise Linux 9
<b>Oracle</b>	Oracle Certified Professional, Java SE 6 Programmer
<b>IIT Ropar</b>	Deep Learning
<b>IIT Madras</b>	Reinforcement Learning
<b>IIT Kharagpur</b>	Data Structure and Algorithms Using Java, Data Base Management System, Machine Learning
<b>Neo4j Graph Academy</b>	Neo4j Graph Data Science Certification, Neo4j Data Modelling Fundamentals, Neo4j & LLM Fundamentals

## Achievements

---

- Won **1st place** in a competition organized by the **Adani Institute of Digital Technology Management**, sponsored by **MSBC Group**.
- Secured **3rd position** among 180 top-tier teams in The Maverick Effect AI Challenge 2024, supported by **NASSCOM** and other prestigious organizations.
- Clinched **2nd place** in the **IndoML Datathon 2024 (Phase 1)**, sponsored by **Nieleniq**, competing against **350+ teams** from all over India.
- Secured **8th place (Top 2%)** in the **IndoML Datathon 2024 (Phase 2)**, sponsored by **Nieleniq**, competing against **410 teams** from across India. Our team demonstrated advanced machine learning techniques to solve complex data challenges, earning recognition in this highly competitive event. Additionally, we were invited to **BITS Pilani** with a generous travel grant to attend **IndoML 2024** in person.
- Secured **64th place (Top 0.1%)** out of **20,000+ teams** in the **Amazon ML Challenge 2024**, utilizing **400+ GPU hours** over three days to refine the solution.
- Selected as a finalist in the **AI Hackathon 2024**, hosted at the esteemed Indian Institute of Management (IIM), Ahmedabad, demonstrating innovative AI solutions among top-tier developers.
- Secured **23rd rank (Top 11%)** out of **196 teams** in the prestigious **Meesho Visual Taxonomy Data Challenge CODS COMAD**, developing a machine learning model to predict product attributes from images.
- Led a team that secured **2nd position** at the University level in the **Smart India Hackathon 2023**, a nationwide innovation and problem-solving initiative.
- Achieved the distinction of being among the **top 11 teams** selected from across India to participate in the prestigious **OpenACC Nvidia Hackathon**, hosted at IISc, Bangalore.
- Achieved **Top 5% nationwide** performance in the Database Management System course by IIT Kharagpur via NPTEL.
- Recognized as an **NPTEL Discipline Star** for completing over 50 weeks of IIT courses in computer science with a consistent score, demonstrating commitment and expertise in the field.

## Projects

---

### DigiManuf: AI-Powered Digital Twin Ecosystem

*GitHub: Link*

- Developed **DigiManuf**, an AI-powered Digital Twin Ecosystem for real-time monitoring, **predictive maintenance**, and anomaly detection in manufacturing.
- Implemented **Digital Twin Technology** with interactive 3D visualizations, synchronized with real-time IoT data for efficient management.
- Integrated **AI-driven predictive maintenance** and simulation capabilities to optimize decision-making in distributed manufacturing environments.

### MediPriority: AI-Driven Healthcare Management System

*GitHub: Link*

- Developed **MediPriority**, an AI-driven healthcare management system to streamline patient care from **pre-consultation to post-consultation**.
- Implemented **multi-agent AI systems**, including text and video analysis agents, urgency scoring, and personalized health recommendations.
- Integrated **dynamic urgency scoring**, **AI avatars for post-consultation support**, and **Google Calendar synchronization** for seamless patient management.

### AI Avatar Maker App

*GitHub: Link*

- Developed a **Flutter-based application** to generate realistic human avatars using advanced AI models and user inputs.
- Implemented **cloud-driven architecture** for fast, on-demand avatar generation with a user-friendly interface.
- Enabled **on-click avatar creation**, ensuring seamless and efficient user experiences.

Extracurricular Activity

---

Board of Studies, Artificial Intelligence and Machine Learning

STUDENT REPRESENTATIVE

- Acted as a key liaison between students and faculty, representing student interests in curriculum discussions and decision-making processes.
- Provided valuable input on course content, program structure, and academic policies to ensure the relevance and quality of the AI and ML curriculum.

Faculty of Technology, Charusat University

2023 - 2025

AI For All Meet-Up 1.0 & 2.0

COORDINATOR

- Played a pivotal role in the successful coordination of the "AI FOR ALL MEET-UP."
- Facilitated collaboration and discussions between AI experts and professionals from various other fields.
- Created an inclusive environment for knowledge sharing, making AI technologies accessible and relevant to all participants.

Dept. of AIML, Charusat University

Sep. 2023 & Sep. 2024

Web Development using React.js

RESOURCE PERSON

- Facilitated engaging learning sessions on React.js, Node.js, MongoDB, and Express.js for a group of enthusiastic participants.
- Delivered comprehensive hands-on training to help individuals master key aspects of full-stack web development.

Computer Society of India & IEEE

Sep. 2022
